

Position Title	LEAD Educator
Reports To	Campus LEAD Coordinator
Stipend	Provided in recognition of additional leadership responsibilities, as determined by school leadership
Time Commitment	Regular planning meetings, professional learning sessions, and cohort collaborations throughout the school year, plus additional time for piloting initiatives, supporting colleagues, and showcases

Position Description

The Westminster LEAD Educator is a collaborative teacher-leader role responsible for advancing a culture of innovation, creativity, and Christ-centered learning within their campus division. Selected for their leadership and forward-thinking approach, **LEAD Educators** serve as early adopters, strategic collaborators, and implementation partners in the ongoing development of the Westminster LEAD Framework.

Through intentional experimentation, professional collaboration, and instructional leadership, **LEAD Educators** support the design and integration of innovative practices that enhance teaching and learning across the school community.

Primary Responsibilities

- Pilot and evaluate emerging instructional strategies, tools, and technologies to enhance student learning
- Support the implementation of Westminster LEAD initiatives within their assigned campus
- Collaborate with LEAD Coordinators to design, refine, and expand innovative programming
- Serve as a resource and point of contact for faculty, providing guidance and support in adopting new practices/technologies
- Share insights, outcomes, and recommendations with fellow cohort members to inform continuous improvement
- Foster a culture of creativity, collaboration, and future-focused learning among colleagues
- Participate actively in professional learning sessions, planning meetings, and innovation cohorts
- Provide constructive feedback on curriculum design, instructional tools, and systems
- Contribute to the development and execution of signature learning experiences and campus showcases

Desired Qualifications & Characteristics

- Initiative and creative problem-solving in instructional design
- Strong collaboration and interpersonal skills
- Openness to innovation, experimentation, and iterative improvement
- A student-centered mindset with a focus on meaningful learning experiences
- The ability to influence and lead peers through example and encouragement
- Adaptability, reflective practice, and a growth-oriented mindset
- A deep commitment to Christ-centered education and student formation

Professional Impact

LEAD Educators play a critical role in shaping the future of teaching and learning within their division. By modeling innovative practices and supporting their colleagues, they help ensure that the Westminster LEAD Framework is implemented with excellence, purpose, and alignment to the school's mission.
