

Position Title	LEAD Coordinator — Elementary Innovation & Framework Design
Reports To	Curriculum Director
Scope	PK–5
Stipend	Provided in recognition of additional leadership responsibilities, as determined by school leadership

Position Description

The **LEAD Coordinator for Elementary Innovation & Framework Design** designs and implements signature pathway experiences for PK–5 students, bringing wonder, creativity, and foundational leadership to life in the elementary division. This Coordinator also collaborates to identify gaps in innovation programming and build the LEAD Framework, the systems, tools, and processes that colleagues implement school-wide.

Primary Responsibilities

- Design and implement PK–5 signature pathway experiences
- Facilitate interdisciplinary learning and signature showcases at the elementary level
- Collaborate to identify gaps in innovation programming and build LEAD Framework solutions
- Cultivate foundational leadership skills among young learners
- Support and coach LEAD Educators within the elementary division
- Collaborate with the PK–12 Faculty Development Coordinator on cross-divisional alignment

Desired Qualifications & Characteristics

- Experience teaching or leading in early childhood or elementary education
- Creativity and instructional rigor in designing hands-on learning experiences
- Strong systems-thinking skills for spotting gaps and building scalable solutions
- Skilled at creating tools, templates, and processes others can implement
- Collaborative leadership style that works across divisions
- A deep commitment to Christ-centered education and student formation

Professional Impact

This Coordinator shapes the earliest experiences students have with innovative, joy-filled learning, while also building the framework that carries that same spirit of innovation across every division at Westminster.
