

Position Title	LEAD Coordinator — Technology Innovation & Secondary Pathways
Reports To	Curriculum Director
Scope	Middle School & High School
Stipend	Provided in recognition of additional leadership responsibilities, as determined by school leadership

Position Description

The LEAD Coordinator for Technology Innovation & Secondary Pathways designs and implements technology-driven innovation and specialized learning pathways for middle and high school students, including entrepreneurship, media, and STEM specialization tracks, internships, portfolio development, and real-world application experiences.

This Coordinator also collaborates to identify gaps in innovation programming and build the LEAD Framework, the systems, tools, and processes that colleagues implement school-wide.

Primary Responsibilities

- Collaborate to identify gaps in innovation programming and build LEAD Framework solutions
- Support and coach LEAD Educators implementing tech-forward instructional practices
- Collaborate with the PK-12 Faculty Development Coordinator on cross-divisional alignment
- Represent MS/HS innovation initiatives in school-wide planning

Desired Qualifications & Characteristics

- Experience with technology integration or specialized program design
- Strong project-management and cross-functional collaboration skills
- Ability to mentor teachers piloting new tools and platforms
- Forward-thinking, adaptable leadership style
- A deep commitment to Christ-centered education and student formation

Professional Impact

This Coordinator equips Westminster's oldest students to apply their learning to real challenges, using technology and specialized pathways to prepare them for what's next, whether college, career, or calling.
